NOTE FOR: Director of Information Technology

E.D. -

Attached is a copy of the Office of Financial Management Fiscal Year 1988 Financial Report. The report has been completely redesigned and refocused this year. Our intent was to make it a more useful management tool--to give you better insight into the resource implications of your decisions over the past few years, and help you assess where you need to invest in the future.

I would appreciate it if you would provide me any thoughts you might have on how it could be improved to serve you better in the future.
